Smoke on the Waterfront

The Northern Waters Smokehaus Cookbook

Northern Waters Smokehaus

A cultural icon of Lake Superior cuisine shares its story, recipes, and techniques

A port city where shipping, the fur trade, hunting, and fishing—and long, cold winters—have made the preserving and preparing of meat a singular art, Duluth, Minnesota, was uniquely well suited for the Northern Waters Smokehaus

when Eric Goerdts launched it in 1998. Soon what had started as a small sandwich counter expanded into a downtown mainstay with a worldwide trade in its signature offerings. **A celebration of the Smokehaus’s singular contribution to the region’s cuisine**, *Smoke on the Waterfront* lays out the stories, recipes, and techniques that have made the establishment a beloved fixture of Third Coast culture.

► MORE COOKBOOKS: PAGES 18, 42–43

The Northern Waters Smokehaus crew shares their many ways of preserving food (smoking, canning, fermenting, charcuterie), including detailed instructions for their kippering process. *Smoke on the Waterfront* presents recipes that take advantage of the natural bounty of Lake Superior’s north shore and capture the flavor of a port city’s old-world charm—all workable with simple equipment.

Whitefish smoked or made into a spread or stock; lake trout curried or stuffed with gremolata; pulled pork Minnesota style, smoked wings, and ribs

and kimchi with maple sambal; pickled peppers, onions, jalapeños, mushrooms, and, of course, sauerkraut: that’s a sample of the provisions that run from roe and gravy to casseroles, chowder, and ice cream. Featuring **beautiful photographs, carefully crafted recipes, and the pithy conversational comments** of the restaurant’s veterans, *Smoke on the Waterfront* evokes the history and the promise of a rich regional culture that endures—and transcends—boundaries.

A Song over Miskwaa Rapids

A Novel

Linda LeGarde Grover

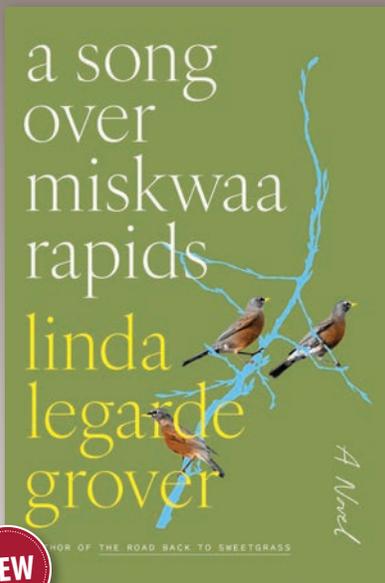

A fifty-year-old mystery converges with a present-day struggle over family, land, and history

When a rock is dislodged from its slope by mischievous ancestors, the past rises to meet the present. Some people of Moshay Point have theories about what happened; others know—and the discovery stirs memories long buried, reviving a terrible story yet to be told.

Returning to the fictional Ojibwe reservation in northern Minnesota she has so deftly mapped in her award-winning books, Linda LeGarde Grover reveals traumas old and new as Margie Robineau, in the midst of a fight to keep her family's long-held allotment land, uncovers events connected to a long-ago escape plan across the Canadian border, and the burial—at once figurative and painfully real—of not one crime but two. **Throughout the narrative, a chorus of spirit women gather** in lawn chairs to reminisce, reflect, and speculate, spinning the threads of family, myth, history, and humor.

Godzilla and Godzilla Raids Again

Shigeru Kayama

Translated by Jeffrey Angles

The first English translations of the original novellas about the iconic *kaijū* Godzilla

Godzilla emerged from the sea to devastate Tokyo in the now-classic 1954 film, produced by Tōhō Studios and directed by Ishirō Honda, creating a global sensation and launching one of the world’s most successful movie and media franchises. Awakened and transformed by nuclear weapons testing, **Godzilla serves as a terrifying metaphor for humanity’s short-sighted destructiveness**: this was the intent of Shigeru Kayama, the science fiction writer who drafted the 1954 original film and its first sequel and, in 1955, published these novellas.

This book finally provides English-speaking fans and critics the original texts with these first-ever English-language translations of *Godzilla* and *Godzilla Raids Again*. The novellas reveal **valuable insights into Kayama’s vision** for the Godzilla story, feature plots that differ from the films, and clearly display the author’s strong antinuclear, proenvironmental convictions.

Olav Audunsson

IV. Winter

Sigrid Undset

Translated by Tiina Nunnally

The fourth and final volume in the Nobel Prize–winning writer’s epic of one man’s fateful life in medieval Norway

Set in thirteenth-century Norway, a land racked by political turmoil, bloody family vendettas, and rising tensions between secular powers and an ascendant church, Sigrid Undset’s spellbinding masterpiece now follows the fortunes of Olav Audunsson to the **final, dramatic chapter of his life** as it unfolds in *Winter*, the last volume of the tetralogy.

With its precise details and sweeping vision, *Olav Audunsson* summons a powerful picture of Northern life in medieval times, as noted by the Swedish Academy in awarding Undset the Nobel Prize in 1928. Conveying both the intimate drama and the epic proportions of Olav’s story at its conclusion, *Winter* is a moving and masterly recreation of a vanished world tainted by bloodshed and haunted by sin and retribution—yet one that might still offer a chance for redemption.

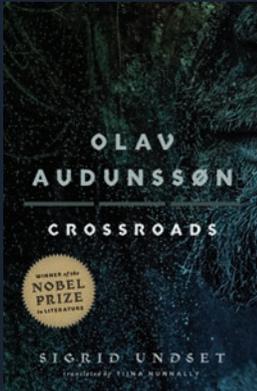

“As always, Undset’s deep knowledge of Catholic doctrine and Scandinavian history informs her work, which is both elegantly written and well translated.”

The Last Supper Club A Waiter's Requiem

Matthew Batt

A witty and humble tribute to the sometimes profane, sometimes profound world of waiting tables

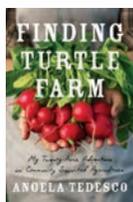

The story of how Matthew Batt, a forty-something professor on sabbatical, found himself returning to a job waiting tables. And loving it. In this **rare and vivid memoir**, he details the challenge and satisfaction of meeting the demands of a fine dining restaurant's frenzied kitchen and equally expectant crowd. **Told with sharp humor, humility, and a keen sense of what matters**, *The Last Supper Club* is an ode to working in restaurants, the relationships that get you to the night's close, and finding yourself through—or because of—the chaos of it all.

“Batt is almost Proustian in mining his early memories of food and restaurants.”

The Rocks Will Echo Our Sorrow

The Forced Displacement of the Northern Sámi

Elin Anna Labba

Translated by Fiona Graham

The deep and personal story—told through history, poetry, and images—of the forced displacement of the Sámi people from their homeland in northern Norway and Sweden

“ To think that someone can write so poetically and beautifully about something that hurts so much. The suffering remains with many, but the truth has finally been told.”

—ANN-HELÉN LAESTADIUS,
best-selling author of *Stolen*

More than a hundred years have passed since the Sámi were forcibly displaced from their homes in northern Norway and Sweden, a hundred years since Elin Anna Labba’s ancestors and relations drove their reindeer over the strait to the mainland for the last time. In a remarkable blend of historical reportage, memoir, and lyrical reimagining, Labba travels to the lost homeland of her ancestors to tell of the forced removal of the Sámi and to reclaim a place in history, and in today’s world, for these Indigenous people of northern Scandinavia.

For her extraordinary work, Labba was awarded Sweden’s most important national book prize in 2020, the August Prize for Best Nonfiction.

Too Much Sea for Their Decks Shipwrecks of Minnesota's North Shore and Isle Royale

Michael Schumacher

Against the backdrop of the extraordinary history of Great Lakes shipping, *Too Much Sea for Their Decks* chronicles shipwrecked schooners, wooden freighters, early steel-hulled steamers, passenger vessels, whalebacks, and bulk carriers—some well known, some unknown or forgotten—all lost in the frigid waters of Lake Superior.

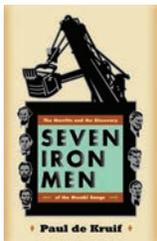

"Too Much Sea For Their Decks is a collection of short sea-stories, vividly captured, dramatic, sometimes emotional, all tragic with the loss of the vessels and sometimes human lives."

F. Scott Fitzgerald

A Composite Biography

Niklas Salmose and David Rennie, editors

A comprehensive study of the life of F. Scott Fitzgerald by twenty-three leading writers

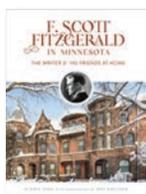

A new star illuminating the literary scene; a chronicler of the Jazz Age in all its brilliance and tarnish; a romantic symbol of the American century; an acute observer of society's best and worst; a midlife burnout at forty-four—F. Scott Fitzgerald was a writer whose **complexity and multitudes** this composite biography finally aptly portrays.

“ There never was a good biography of a novelist. There couldn't be. He is too many people, if he's any good.”

—F. SCOTT FITZGERALD
in *The Crack-Up*

Bringing together twenty-three leading writers and scholars on Fitzgerald, each focusing on two years of his life, *F. Scott Fitzgerald: A Composite Biography* reflects the multifaceted whole of a “life in many parts” in new and revelatory ways.
